

K-Class uses CL266

The one-design K-Class yacht uses CL266 Mini Line-Loks for sail control. It is radio controlled and is manufactured in the Netherlands by Lion Charmant. It has an overall length of 1.9m and an all up weight of 18.5 Kilos, 12 Kilos of which are in the Lead Keel, delivering superb handling and performance.

The pink cord adjusts the cunningham.

Maybe he has just won a race?

This is a Class with a great sense of humour. They have created the "Golden Line-Lok" award which was won by Ellen Busbroek in December 2005
